

Northern Reading Program: Understanding Our Three Participant Categories

The SaskPower Northern Reading Program is designed to cater to a diverse range of readers, each at different stages of their reading and life journeys. To best meet the varying needs and interests of our participants, we've established three distinct categories: Adventurers, Pathfinders, and Voyagers.

Adventurers (Grades K-6):

Focus: This category is tailored for young readers who are just beginning their reading adventures. The program for Adventurers is designed to ignite a love for reading and exploration in children.

Activities: Engaging and imaginative activities are included to make reading a fun and interactive experience, helping to develop foundational literacy skills.

Pathfinders (Grades 7-12):

Focus: Geared towards teenagers, this category addresses the evolving interests and reading capabilities of young adults. The Pathfinder program aims to challenge and engage these readers with more complex material and thought-provoking activities.

Activities: The focus is on fostering critical thinking, empathy, and a deeper understanding of diverse narratives, preparing them for more advanced literary exploration.

Voyagers (Adults 19 and up):

Focus: This category is for adult readers, offering a platform for lifelong learning and continuous engagement with literature. The Voyagers program is designed to accommodate a wide range of interests and reading levels, from casual readers to avid book enthusiasts.

Activities: The program includes diverse reading materials and activities that encourage adult readers to explore new ideas, engage in discussions, and expand their horizons.

Each category is thoughtfully curated to align with the developmental, intellectual, and emotional stages of its respective participants, ensuring a fulfilling and enriching reading experience for all.
